ReduxJS, Socket.IO, Git, Github, Bootstrap, Canvas,
Meistertask, ChromeDev Tools, PhpStorm

EXPERIENCED

Ajax, Axios, Postman, SQL, MySQL, Php,
Node.JS, Salesforce

APPLICATIONS

MEMORY MATCH

- A game that requires the player to match cards, includes a Clue theme and various crimes
- Created with HTML5 and CSS3 for basic styling, with Javascript and jQuery providing game play
- The game includes comparing card choices for win functionality, randomization of all elements to encourage repeat play, and player statistics

POKEMON REVOLUTION

- A fun two-player game where each player is given a pokemon card with stats and they 'battle' the other player by following key press commands
- HTML5 and CSS3 used for appearance, with functionality provided by Javascript, jQuery, and ajax calls
- The product of a two-day hackathon

HELLO, OPERATOR

- Multiplayer game where a spymaster guides a spy through a map, encourages player communication
- Includes system login, facebook login, and connecting players logged in to our server to initiate game
- Game involves collision detection, two player roles and user interfaces,
- HTML5, CSS3, and Canvas for appearance, with functionality from ReactJS, ReduxJS, Socket.IO, Php, Node.JS and a SQL database

EXPERIENCE

ESRI USER CONFERENCE CLERK

- Handled day to day office tasks such as routing contracts and POs, maintaining event information through ExhibitForce and SAP
- Prepared for the Annual User Conference performing clerical tasks for the Tradeshow Events team
- Addressed the questions of attendees, smoothing over concerns and recommending procedures

UC MERCED ADMISSIONS ADVISOR

- Attended college fairs to engage students in discussions that promoted applying to UC Merced
- Gave presentations to students to generate interest in UC Merced and clarify information
- Gave the marketing team feedback on campaigns and publications they were executing

INTERN: UC MERCED ENROLLMENT MANAGEMENT

- Created publications, videos, and other content for both the school's social media accounts and my own professional accounts
- As a part of the marketing and outreach team, I engaged in planning and executing marketing campaigns for major University events
- Developed and executed workshops and presentations to promote student enrollment
